

Kind of a no brainer.

Why would we be paying for the xm variety of entertainment & news if it were not better in our eyes? No different then why customers subscribe to HBO etc.... freedom of individual choice.

Sounds like the only issue that NAB has is greed.

Please, FCC & Congress, don;t waste taxpayers time dissecting such aelementary Democratic issue because a competitor is loosing business by not doing a good job so they want to hide behind Constitutionality ??

Shouldn"t the choice be the customers?
